Treasurer Pavlicek noted that many members may not realize that if they are eligible for GIC insurance and have been employed in the state university system for a minimum of six months, they are automatically enrolled in MetLife dental insurance.

**Visiting Speakers’ Time: Max Page – MTA Executive Committee**
After introductions, Max Page stated that he is going to the different units and campuses to touch base with his constituents and see how things are going. Of particular importance to Professor Page is to find out what issues are of concern to higher education units within the MTA so that he may specifically address these issues and concerns during MTA Executive Committee discussions.

Professor Page requested that board members provide him with information on ways the MTA could change and improve itself. Lengthy discussion followed. Listed below is a summary of some of the suggestions made by board members:
- The MTA needs to work more vigorously on behalf of higher education, particularly in the area of legislative action.

- Additional consultants and personnel should be made available to the MSCA considering the amount of money paid in dues and the heavy work-load of the existing (day bargaining unit) consultant.

- The amount of money that part-time members pay in dues is higher proportionately to the amount of money that full-time members pay. This disproportionate dues structure should be corrected.

- Public education and public higher education are under assault. There is a need to hear more voices speaking on behalf of higher education in the MTA.

- The MTA needs to emphasize the need for a K-16 education.

- The MTA annual meeting needs to be streamlined and organized in a different manner so that timely emphasis is given to the important business of the day.

**HELC PowerPoint**
Sarah Nathan and Max Page presented board members with a viewing of the HELC higher education PowerPoint. Discussion followed. The PowerPoint will be sent to board members for additional comments.
