

Text of Survey and Ballot Systems “MSCA White Mail 2018” Pages

Survey and Ballot Systems (SBS) sent photocopies of handwritten comments on paper ballots via USPS mail. These photocopies, as dated below, were paperclipped together with a coversheet marked as “MSCA White Mail 2018”. Since these comments were handwritten and since the handwriting may be recognized by others, I typed the comments, listed them in the order by date, and included them below; the comments have *not* been edited. Since these comments are part of the election results, in the spirit of transparency and full disclosure, I include these comments with the SBS election report on the MSCA website.

3-29-18: These guys may be fine, but this is not an election!

4-2-18: Why is the only woman on the ballot for the role of secretary? We need change.

4-3-18: Note the only female is secretary.

4-3-18: Please communicate to members about elections & deadlines etc. I will not vote until we start having contested elections.

Respectfully submitted by Sarah Mabrouk, Chair, Elections Committee
